

## The 4th International Symposium on High Power Laser Science and Engineering

### Sponsorship & Exhibition

The 4th International Symposium on High Power Laser Science and Engineering (HPLSE2020) is organized by Shanghai Institute of Optics and Fine Mechanics (SIOM), Chinese Academy of Sciences (CAS), and will be held on April 13-18, 2020 in Suzhou, China.

HPLSE is held every two years, and aims at bringing together worldwide scientists and engineers working on the topics of high energy density physics, high power laser, high power laser related components, and advanced laser technology and applications.

We warmly welcome from all related companies and organizations.

The topics include but no limited to:

Topic 1: High energy density physics

- Laser plasma interactions
- Inertial confinement fusion
- Laboratory astrophysics
- Nuclear photonics
- Bright X-rays and applications
- Laser driven electron and ion acceleration
- Extreme nonlinearity and relativistic optics

Topic 2: High power laser systems

- Laser facility engineering
- Laser system design, modeling and optimization
- Pulse generators and preamplifiers
- Laser pumping and amplifiers
- Frequency conversion and nonlinear optics
- Beam shaping, smoothing and combining
- Light propagation, alignment, diagnostics and wave-front correction
- Laser and plasma diagnostics

Topic 3: Laser components for high power laser

- Optical materials
- Optical fabrication, processing and testing
- Optical film coating
- Optical gratings
- Laser induced damage
- Novel optical materials and devices
- Target fabrication

Topic 4: Advanced laser technologies and applications

- Ultrahigh power laser technologies
- High-repetition-rate laser technologies
- High power mid-infrared laser technologies
- High power terahertz sources and applications
- Ultrafast and attosecond technologies
- Fiber and fiber lasers
- Diode pumped solid state lasers
- Excimer, chemical and free electron lasers

### HPLSE2020 Sponsorship and Promotional Opportunities

Type	Description		Price (CNY)
Diamond (only 1)	A displaying table with background. A display stand (3*4 m). 2 free participants. 20 min technical talk at related session. Leaflet/trifold in material bag. (No more than 8 pages) A program back cover Ad. (Full-page, color, 210*285 mm)		60000
Gold (only 2)	A displaying table with background. 2 free participants. Leaflet/trifold in material bag. (No more than 8 pages) A program inside front Ad. (Full-page, color, 210*285 mm) Products speech (10 min) before technical session (in coffee break time).		40000
Sliver	A displaying table with background. 2 free participants. Full-page ad in program. (210*285 mm)		30000
Sponsorships	Product displaying	A displaying table with background.	20000
	Conference gift	Logo printed at gift (to all participants).	20000
	Stand ad	A display stand 3*4 m.	25000
	Lanyard	Logo printed at lanyard.	15000
	Materials bag	Logo printed at materials bag.	8000
	Program Ads	Full-page ad in program. (210*285 mm)	8000
	Coffee Break	Stand poster at coffee break.	8000
General	Link & logo at conference homepage and logos at printed materials.		Free
